

Your Guide to International Conferences!

PARS (Pan-American Regional Symposium)

- There are 5 regions total in IPSF, Pan-American Regional Office (PARO), African Regional Office (AfRO), Asia Pacific Regional Office (APRO), Eastern Mediterranean Regional Office (EMRO), and European Regional Office (EuRO).
 - The United States APhA-ASP organization is a full member in the **PARO region**.
- Once yearly, we have a conference called PARS, the Pan-American Regional Symposium! This is the perfect opportunity to meet other student pharmacists in our region and collaborate on new policies.

WORLD CONGRESS

- Because our APhA-ASP United States organization is also a member of IPSF, we are invited to the **World Congress** each year. This is a conference which invites student pharmacists from all corners of the globe to learn from each other and advance the field of pharmacy!

REGISTRATION

- To register for any of these conferences, look out on APhA-ASP's social media which is where we will share any relevant information that is sent to us, as well as on the APhA-ASP website where we will link the conference websites. There will be a registration fee which often covers the conference itself, accommodations and social events!
- There is a confirmation letter required from the National Contact Person – this is just to confirm to the host organization that the student applying to the conference is an active APhA-ASP member!
 - Send the National Contact Person an email (usaipsfcp@gmail.com) with a screenshot of your APhA-ASP membership and they will send you the letter.
