

Medication Therapy Management

Medication Therapy Management Service(s) (MTMS) describe face-to-face patient assessment, and intervention as appropriate, by a pharmacist. MTMS is provided to optimize the response to medications or to manage treatment-related medication interactions or complications.

MTMS includes the following documented elements: review of the pertinent patient history, medication profile (prescription and non-prescription), and recommendations for improving health outcomes and treatment compliance. These codes are not to be used to describe the provision of product-specific information at the point of dispensing or any other routine dispensing-related activities.

- **0115T** Medication therapy management service(s) provided by a pharmacist, individual, face-to-face with patient, initial 15 minutes, with assessment, and intervention if provided; initial encounter
- **0116T** Subsequent encounter
- **+ 0117T** Each additional 15 minutes

(List separately in addition to code for the primary service)

(Use 0117T in conjunction with 0115T, 0116T)

The codes were released on July 1, 2005. They will be implemented January 1, 2006.
